Deposit amount: $_____, submitted on the date: _____.

Description of leasehold location:

Initials _____/_____

General Points of Agreement

It is understood that:

- At the end of the rental term, no automatic leasehold renewals or extensions are guaranteed. However, any agreements to respect the land, people and policies remain in effect so long as a resident remains on site.
- Construction and land-work may be taking place during this rental term. The residents agree to accommodate the needs and requirements of this work and the individuals undertaking it, as to not interfere or interrupt the progress.
- The Resident is expected to be mindful of the other residents living on site, and to not make too much noise after 9pm, or before 8am, that may be disruptive to the reasonable enjoyment of the other residents unless consent has been established between all parties likely effected.
- The Resident, and any members of his/her party and/or guests, agree to abide by all rules and regulations of the lease agreement, as well as local bylaws involving noise limits, parking and garbage collection. The Community Administration reserves the right to evict the Resident and/or his guests guilty of misconduct, such as: resulting in non-payment of rent, damage to the building or disturbances effecting the reasonable enjoyment of the other residents.

1. LIABILITIES

- The Resident (Tenant) agrees that the Landlord (Community Administration) shall not be held responsible for any injury or material loss suffered anywhere on the property by the Resident, or of any guests invited onto the property by the Resident. The Resident is therefore responsible for having insurance to protect any personally held assets, such as a trailer, etc.
- The Resident agrees to take full responsibility over his/her own welfare, and shall not sue, threaten or engage in other legal or social aggressions against the Community Administration.

2. DISCLOSURES

- The Residents shall be responsible for disclosing any information to the Landlords that might affect the rental relationship as well as any other social interactions occurring on the land involving other Residents or third parties. These disclosures include, but are not necessarily limited to:
    - Medical Issues, Serious Allergies, Addictions or other Dependencies, Grievances held against other residents, and Financial Limitations that may affect the Residents ability to pay rent in full and on time.

Please take a moment to mention below any items that should be disclosed now, prior to moving onto the property:

3. GUESTS

- The Residents, and the Landlords, will both exercise caution when inviting guests onto the property and show respect and consideration for the other Residents, and any neighbours.

- The Resident is fully liable for all actions, damage or complaints of any guests invited onto the property by the resident. This includes pets or other domesticated animals invited onto the land as Guests.

4. PETS

- If a Resident wishes to bring a pet onto the land, the nature of this pet must be first disclosed to the Landlord (Community Administration), and the CM must provide explicit permission, in writing and indicated on this lease, identifying such consent.

- If the Resident does not have a pet when moving onto the land, the Resident MUST inform the Landlord prior to committing to a pet later on. Under no circumstances shall the Resident bring a pet onto the land without first consulting with the Landlord.

- The Resident is fully, and solely responsible for all damage, noise complaints, or other misconducts of his/her pet, and must take full responsibility over the pet, the pets needs, and the pets actions in and around the property. It is also understood that pets may not be permitted on the premise, and that this discretion remains with the Landlords.

5. DOMESTIC WASTE AND RECYCLING

- All Residents must be willing and able to take full responsibility over their own waste, and their own recycling, by organizing it in the appropriate fashion. This may also include transporting this waste to the appropriate disposal location promptly and without undue procrastination.

- Any garbage or recycling is to be kept clean and tidy, and away from sight from outside the Residents domestic living space.

- Failure to meet the requirements for maintaining responsibility over one's own waste may result in the Landlords disposing the waste, and charging the Residents responsible for such waste, a minimum of $50 plus any costs for travel, delivery and disposal of such waste.

- It is requested, and highly encouraged, for the Resident to recycle as much as possible, by separating all recyclable goods and returning those items to the recycling center in a manor appropriate to their specifications.

- It is also asked that the Residents remain ecologically mindful when purchasing goods that are accompanied by unnecessary waste, and that bags and containers are reused to reduce or eliminate the need for excess packaging to be discarded through waste or even recycling. Re-using, and up-cycling are the two best options.

6. COMPOSING

- All food-based compost is kept in the freezer, and disposed to the compost bins regularly. Those living outside the house are responsible for their own system but may still use the common composting stations.

- No non-compostable items are to be placed within the compost, nor are meat products. This includes fruit stickers, or even decomposable plastic bags. Please also note that 'non-organic' compost may require being separated from organic compost if those systems have been activated on the land.

7. SUBSTANCES

- No illegal substances or effects are permitted on-site. This includes dangerous drugs, firearms, etc.
- Alcohol and other mind altering substances such as cannabis are to be used cautiously, and in a way whereby behaviours resulting from such substances do not adversely effect the peace and well-being of others residing on the land or within the community.
- Smoking of pre-packaged cigarettes are to be kept off the property completely (unless and until a dedicated smoking zone within the property boundaries are established). If a resident smokes tobacco cigarettes, he or she agrees to not leave any butts or other waste around the property, nor to partake in a way that effects others.
- Any waste from substance use is to be cleaned by the resident (such as alcohol bottles) and to be kept out of sight for the benefit of the other residents and guests. If a Resident invites a Guest over whom uses substances, the Resident will remain responsible for any waste or behaviours of their Guest.

8. MAINTENANCE AND REPAIRS

- The Resident is responsible for the day-to-day clean up and maintenance of his/her own living zone, and/or his or own rental space if within a structure belonging to Entelechy.
- The Resident is also responsible for maintaining the tidiness of common areas, such as laundry room, bathing areas and hallways, garbage station, and all other community resources after such use by the Resident.
- The Resident agrees to notify the Landlord of any water leakages, electrical malfunctions, or any other problem that may result in damage to the buildings or other Residents living spaces.

9. EMERGENCIES

Emergencies include, but are not limited to: Floods, Fires, Domestic Disputes, Fights, Injuries (both human and non-human), and others that may be equally as serious to the general well-being of any Resident, any structure, or any aspect of the land under a threat of some sort or another.

- If a serious emergency occurs, a resident must do their best to contact emergency services, and then the landlords or any other individual within proximity who can possibly help.
- If an emergency arises that isn't of a life threatening or otherwise serious nature, (in the case of a flood, for example) the Resident will do their best to discern the cause of said emergency and do what they can to mitigate it. If an emergency persists, then the next course of action is to call the Landlords, or any other residents nearby who can help.
- The Resident agrees to provide the Landlords with all contact info. This includes: Phone Number, Emails Address, and emergency contact info.

Resident a: _____

Resident b: _____

Emergency contact:_____
First Name Phone Number Email

Initials _____/_____

10. MONTHLY RENTAL PAYMENTS

- Monthly rental payments must be made on or before the 1st of each month via, direct deposit, bank transfer, cash or check.
- The Resident is responsible for making sure that rent is paid to the Landlord on or before the 1st of each month.
- Any late rental payments may result in a $50 late fee, payable to the landlords by the Resident. Excessive and consistent late payment of rent may result in an eviction.

11. SECURITY DEPOSIT

- The Resident shall submit a **security deposit** in the amount equal to one half of one month's rent, which shall be held by the Landlords as security against any damages incurred as a direct result of the Tenant or his/her guest's. This amount will be given back to the Tenant upon the Tenant's departure and in full only once the Landlord have inspected the living space.
- The security deposit shall NOT be used towards the last month, rather returned in full upon the final day of departure after inspection. Rent for the last month is still expected on the 1st of that month.
- The Tenant will be liable for costs associated with items such as: loss of keys, or any damage caused to the property or any of the structures. This includes excess cleaning, repair, or replacement due to accidental breakage, wilful neglect or intentional abuse requiring the repair of the Landlord.

12. UTILITIES

- If indicated on the first page, the Resident may be required to pay for some of the utility costs, either by: a) a set monthly amount, b) a division of a total amount used by a household, or c) an amount separately metered.
- All utility payments are to be paid on, or before the 1st of every month, ideally during the same time when the fixed rental amount remains due.

13. COMMUNITY CULTURE

- The Resident understands that living at Entelechy also means choosing to be part of a community. That, prior to moving onto the land, all additional documents pertaining to residential occupancy must be read and fully understood. That, being a part of community also means weighing the needs of the community whole in respect to any personal needs that may be in contention, and to be willing to prioritized the collective needs if requested by the Landlords.
- Depending on where the resident resides (be it a room in the house, or another living zone on the property) the Resident understands that additional responsibilities may be required by the resident, and that these responsibilities may be included as an addendum in addition to this agreement or as a part of the **Entelechy Orientation Documentation.**

14. TERMINATION OF AGREEMENT

- The Resident agrees to provide a MINIMUM 30 days notice, in writing, to the Landlord when terminating the lease. Any less than 30 days notice may result in the Resident being obligated to pay for another month of rent.
- The Resident shall not assign or sublet the premises without the prior written consent of the Landlord.
- It is agreed and understood that within 30 days prior to the expiry of the lease agreement that the Landlord(s) shall be permitted to access the leased area for the purpose of inspection, to re-lease, and to show new tenants or prospective buyers. The Landlord shall give a minimum of 24 hours notice to this right of access.
- The Landlords retain the right to ask the residents to leave if any items within this agreement are not consistently met with respect and consideration for the community, the landlords, or other residents.

CONCLUSION

By signing below, the Tenant (Resident) acknowledges having read and understood all points within this lease agreement, and agrees to abide by the guidelines and policies as outlined above. Further, he/she understand that the agreement framework is constantly evolving, and to review any new policies being put forward by the community administration that may affect the Tenants residency.
